PROJECTS

Bunkoo Meter - Smart Attendance Tracker (Solo) | bunkoo-meter.web.app | [GitHub](#)

PWA | AI Insights (Groq LLM) | Prompt Engineering

- Designed and shipped an installable PWA attendance tracker via AI-assisted development — 500+ active users, 6,600+ tracked events, 3,200+ views within 3 months of launch.
- Integrated Groq LLM through prompt engineering to deliver real-time bunk percentage analysis and attendance alerts.

Finacy - Business Management (Solo) | finacy-91d2a.web.app/ | [GitHub](#)

IndexedDB | Prompt Engineering | AI-Assisted Development

- Built an SMB management platform supporting inventory, sales and rental tracking in a unified dashboard.
- Defined local-first product architecture ensuring 100% data privacy — all records stored on the user's device via IndexedDB.

NIET LostLink - Campus Portal (Solo) | niet-lostfound.web.app | [GitHub](#)

Firebase (Firestore • Storage • Auth • Hosting) | Composite Indexing | Serverless Architecture

- Designed and shipped a campus portal with dual-access architecture (admin moderation + student interface) via AI-assisted development.
- Deployed working MVP in 1 week; configured multi-filter search, photo uploads via Firebase Storage, and composite indexing.
